SAVES WASHING—SAVES WIPING—SAVES SCOURING**

**Yet! Dishes and glasses shine
—even without wiping!**

With new self-washing Drest you simply let your dishes stand in warm Drest suds for 2 minutes—give a swish of the cloth as you rinse—and you're through. Dishes and glasses shine... even without wiping.

Pots and pans soak clean without scouring. These self-washing suds also work their magic on pots and pans. Have an amazing "float-away" action that gets under grease—floats away grease—better than any soap in the world. Even stubborn grease rinses away without scouring. Yet! self-washing Drest is so mild it leaves hands beautifully smooth and white. Get self-washing Drest today.

Drest is safer for dainty washables than the mildest soap flakes.
